**Mallusk**

**Danny Kinahan**

It has been an enormous pleasure representing the Mallusk area at Stormont, since I replaced David Burnside as the UUP MLA in June 2009, especially so since I was born and brought up in the Mill House, which is now Beech Manor.

**Mallusk Community Group** - I have thoroughly enjoyed working with the community group and hope all of you will keep supporting them with their excellent work helping to promote your area, clean up and represent all of you so well.

**Ballyvesey** - I will keep pushing and working with you to improve the lighting, noise and visual concerns over this scrap yard, pushing both the planners and the yard itself to improve matters.

**Biffa/Landfill site** - I have been heavily involved in putting pressure on the site to improve its cleanliness, smell, flies and most importantly its communication and response to all of your complaints, and I will continue to do so, and please do keep me informed of any developments.

**Speeding** - I will keep pushing for the imposition of a speed limit and a friendlier infrastructure to all of you who live in Mallusk. The future planning system, with which I have been heavily involved at Stormont on the Environment Committee, will mean councils draw up the local development plans with community involvement in doing so. I therefore urge all of you to keep supporting your local community group.

**Local pollution/litter** - I have continually worked with local anglers, the Six Mile River Trust and Ballymartin river groups as well as the community groups to help clean up the rivers. I congratulate all of those who joined in to help on the clean up day.

I will continue to fight for all of your concerns whenever they are raised with me and look forward to doing so in the future.

**Danny Kinahan**
